How have vaccines for COVID-19 been developed so fast?

Priority & collaboration
Scientists, doctors, ethics approval boards, manufacturers and regulatory agencies have all come together to work harder and faster.

Science
Advances in vaccine technology that are built on the back of many years of research.

Funding
Governments and funding bodies have joined forces to remove financial obstacles.

Manufacture
Large-scale manufacturing of the vaccines occurred in parallel with the clinical trials, to scale-up production quickly.

Volunteers
10,000s of keen volunteers for clinical trials so recruiting enough has not been an issue.
